

# SMARTDOCS: Content Management and Reuse in Microsoft Word

Use SmartDocs to create, manage, track, find, and share your Microsoft Word content.

SmartDocs is a content management and content reuse solution for Microsoft Word that makes writing and reusing your organization's content simple and efficient.

With SmartDocs, your organization will:

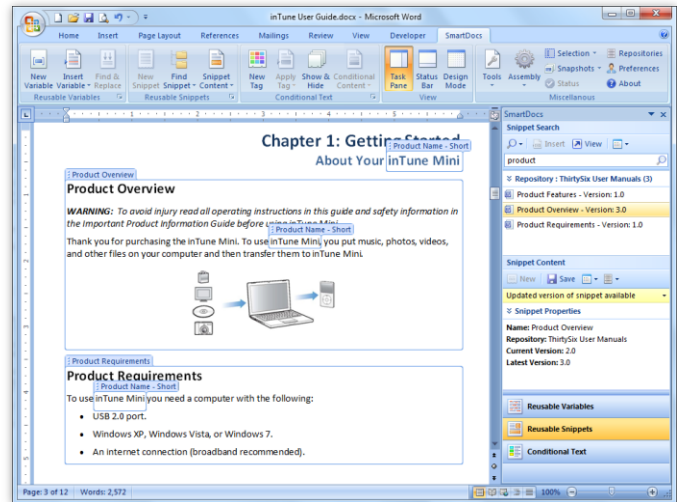

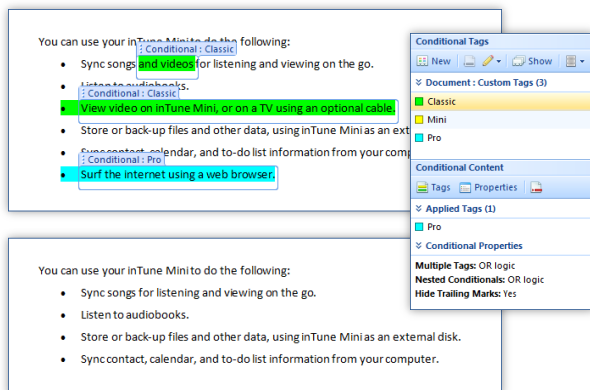

- Create documents faster
- Improve the quality of the documents you create
- Keep your documents consistent and up-to-date

SmartDocs integrates powerful content reuse capabilities into your Microsoft Word authoring environment. These capabilities enable your organization to save time, save money, and generate higher quality documentation.

## SmartDocs Features and Benefits

- Leverage already authored and approved content to quickly create new Microsoft Word documents.
- Easily reuse text, tables, graphics, and charts across Microsoft Word documents.
- Use conditional text to generate multiple variations of output from a single Microsoft Word document.
- Eliminate inconsistent and out-of-date content with proactive change notifications and automatic updates.
- Works with legacy Microsoft Word documentation. No document conversion is required.
- Integrates with any document management system. Continue to store your documents in the same location you use today.
- Get started quickly – SmartDocs is easy to set-up and learn.

### Generate multiple variations of a document.

Write once. Approve once. Use everywhere.

## SmartDocs Supports Your Documentation

- **Technical Writers:** Technical documentation, user manuals, help guides, quick start guides.
- **Sales and Marketing Writers:** Proposals, data sheets, marketing brochures, press releases.
- **Medical Writers:** Protocols, clinical summaries, study reports, investigator brochures.
- **Instructional Designers and Trainers:** Instructor-led training, course content, course assessments.
- **Legal Writers:** Wills and trusts, leases, contracts, power of attorney.
- **Other Writers:** Policy and procedure documents, real estate documents, research reports, and more.
